

# Teens & Toddlers: Pregnancy Prevention

## Proven Benefits

- 97% of graduates do not become pregnant up to the age of 18.
- 93% of graduates, who were targeted as at risk, remain in education, employment or training (EET) between the ages of 16 to 18
- 92% of graduates earn a Level 1 National Award in Interpersonal Skills
- 92% felt that during T& T they learned about sexual health
- 91% of participants reported that T&T helped them understand more about sexual health and the realities of having babies
- Teens & Toddlers delivers a Social Return on Investment (**SROI**) of over **£6 in savings for every £1 spent on the programme.**

## Early Intervention Transforms Lives

Teens & Toddlers is an effective Teenage Pregnancy Prevention and Sexual Health Programme.

The rate of under -18 conception was 37.9 per 1000 girls (ONS). The annual cost of teenage pregnancy is estimated to be over £63 million to the NHS alone.

Through participating in Teens & Toddlers young people aged between 14 and 17, who are identified as at risk by their schools, are paired with toddlers, in a nursery setting. This builds their aspirations, educational attainment to achieve their potential and delay pregnancy, as well as choosing to remain in education, employment or training.

Teens & Toddlers has been recognised by The Centre for Excellence in Outcomes in Children and Young People's Services (**C4EO**) as **effective, good value for money and well evidenced.** It delivers a Social Return on Investment (**SROI**) of **over £6 in savings for every £1 spent on the programme.**

Teens & Toddlers is **endorsed by DfE and Department of Health**

Teens & Toddlers has helped over **7,000** disadvantaged young people and children, in over **100** schools, across more than **27** Local Authorities nationwide, since 2001.
